

# General Aviation Airport Security Signage Program

---

As a public service and in an effort to improve airport security, the California Department of Transportation, Division of Aeronautics is providing all public-use general aviation airports in California with basic airport security signage guidance as described below:

1. The following sign should be located at vehicular and pedestrian access points to the airport operations area (3 each per airport):

**AIRPORT  
OPERATIONS  
AREA**  
NO UNAUTHORIZED  
PERSONS BEYOND  
THIS POINT

2. The following sign should be located on perimeter fencing facing areas accessible to public and on perimeter access gates (4 each per airport):

**AIRPORT  
PROPERTY  
NO  
TRESPASSING**  
VIOLATORS WILL BE  
PROSECUTED

3. The following sign should be located on fencing around fuel storage facility or mounted on or near facility if there is no fencing (1 each per airport):

**RESTRICTED  
AREA  
KEEP OUT**  
AVIATION FUEL  
STORAGE FACILITY
